

SKETCH BLOCKS

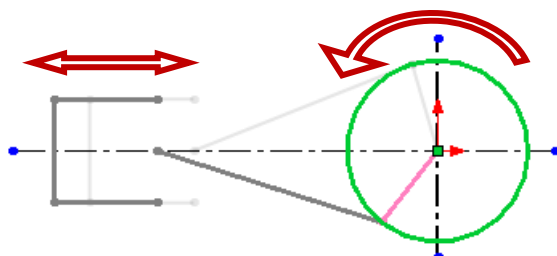

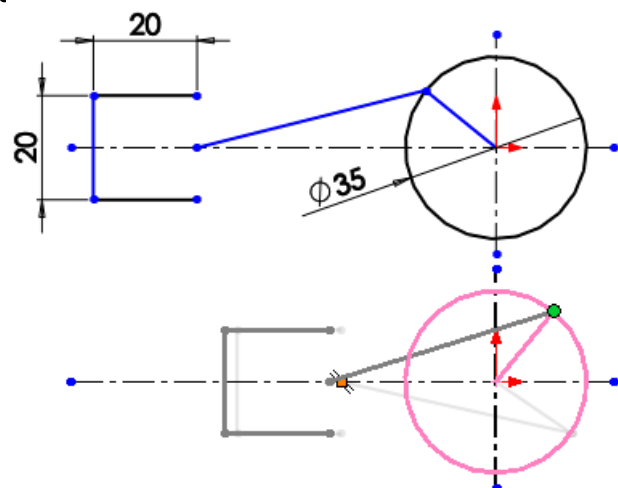

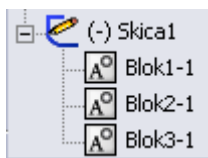

Moving scheme of mechanism you will create by blocks and appropriate defined linkages of 2D sketch. Use your practical experience and logical thinking. Moving scheme is drawn more simple. 3D parts are not made from these sketches. They are used only for image of moving.

1. Create independently moving scheme of transmission **gearwheels** with put wheel by the model

2. Create moving scheme of simplified **crank** mechanism

3. Independently create and animate moving of star- shaped engine with three rollers
